**Clinton County Health Department
Press Release
H1N1 Media Update #3
May 1, 2009**

H1N1 Pending Test Results

The following changes/results are as follows:

1 no longer meets case definition; no further testing is required.

1 test has been completed and the results are negative for H1N1.

1 test is still pending.

All individuals tested/pending to date from Clinton County have experienced mild to moderate influenza symptoms. None required hospitalization. All individuals have recovered or are in the recovery process

No additional suspect cases, meeting the specific Centers for Disease Control criteria for testing, have been submitted as of May 1, 2009. The Health Department is continuing active surveillance and ongoing communication with health care providers.
