**Clinton County Health Department  
Press Release  
"Community Partnership Award"  
May 9, 2008**

The Clinton County Health Department recently recognized the Clinton County Department of Motor Vehicles for collaborating with the Health Department to increase teen immunizations through the distribution of meningococcal and HPV vaccine information to all teens applying for their driving permits.

Teenagers are often difficult to reach but through the efforts and assistance of the Motor Vehicle staff, teens are receiving an important health message.
