Clinton County Health Department Press Release

"Healthy Neighborhoods May Be Coming To Your Neighborhood" (December 23, 2009)

The Healthy Neighborhoods Program of the Clinton County Health Department will be conducting Health and Safety surveys throughout the Town of Plattsburgh during the months of January, February and March. These brief in-home surveys are designed to identify health and safety concerns. Home safety products such as fire extinguishers, first aid kits, water bottles, flashlights, child safety products, allergen barrier mattress and pillow covers, carbon monoxide and smoke detectors may be provided by the Healthy Neighborhoods Program to program eligible families.

During the home visit, education is provided regarding fire and burn safety, carbon monoxide poisoning prevention, prevention of lead poisoning, asthma, injury prevention and many other health and safety topics. Information and referrals are also provided regarding available community resources for which a family may be eligible. Participation in the Healthy Neighborhoods Program is **free** for all Clinton County Residents! Don't miss this opportunity to participate!

If you would like more information about Healthy Neighborhoods, have questions, or would like to schedule an appointment, please contact Healthy Neighborhoods at (518) 565-4993, www.clintonhealth.org.
