

PUBLIC HEALTH WORKS!

Clinton County Health Department

(a poem)

- ◆ For those who are ill, it's recovery at home; with nurses and therapists so they're not alone.
- ◆ For travelers abroad, it's protective vaccines; As well as for children, adults, and teens.
- ◆ It's development for youngsters with special needs. It's facts and support for moms learning to breast feed.
- ◆ It's safety inspections for each restaurant and camp; and reviewing subdivisions for an approval stamp.
- ◆ To a newborn babe, it's "back to sleep". To a smoker, it's knowing how to quit for keeps.
- ◆ It's working to stop germs that readily spread, And preparing for emergencies we all dread!
- ◆ For women, it's a breast and cervical screen. For everyone, it's air and water – safe and clean.
- ◆ Offered to all: good health to share; for always and ever it is services and care.

Clinton County is how

PUBLIC HEALTH WORKS!

Public Health is Working
Every Day to Keep You
and Your Family Healthy!
