Planning Safer Communities for Pedestrians and Bicyclists

Workshops presented by the
Clinton County Action for Health &
CORNELL LOCAL ROADS PROGRAM
Sponsored jointly by:
Federal Highway Administration
New York State Department of Transportation
Cornell University

Who should attend:

Local officials and planning board or council members for villages, towns, cities and counties, who are interested in learning the basics of how to safely accommodate pedestrians and bicyclists in their community.

Participants will learn about:

Planning strategies and basic design and maintenance principles used in pedestrian and bicycle friendly communities. Participants will also learn how to do a community assessment for walkability and bikeability. Other topics will include traffic laws, essential items for one's "toolkit", education strategies, multi-use facilities, and enforcement.

Registration

Please complete the above registration form and mail or fax it to Clinton County Health Department by June 11. Please make copies of the form as needed, and include a separate registration form for each person enrolling.

Cancellations

If you must cancel your registration, please call (518) 565-4993. This allows us to adjust our food order or offer your place to someone on the waiting list. Of course, someone may substitute for you at any time.

Certificate of attendance

Upon completion of the entire workshop, each participant will receive a certificate of attendance.

Course instructor

Lois Chaplin: Bicycle and Pedestrian Specialist for the Cornell Local Roads Program. Lois' background includes 20 years of experience as a bicycle and pedestrian traffic safety educator with Cornell University, designing materials for educators and law enforcement, and most recently for planners and engineers.

This workshop may qualify for credit in the CLRP Road Master Program.

For information or questions, please call the Clinton County Health Dept. at (518) 565-4993

Funding to offer this FREE workshop comes from a Clinton County Health Department Grant and is part of the Action for Health community partnership addressing chronic disease in Clinton County
