The goal of this training is to understand the impact compassion fatigue has on job performance, personal coping skills and job/life satisfaction.
These PowerPoint slides are solely for the purpose of using in the conference app or so you have something to take notes on.

My actual presentation will....

Contain funny photos, video clips and songs.

If you plan to attend please be willing to participate in the session. Don't just sit back and stare be active and take part.
I train all over the U.S. but Ohio is my home.

I try to keep up on articles and studies about vicarious trauma, burnout, human trafficking, sexual assault and a variety of other topics.

If you attend you will learn how to identify the effects of vicarious trauma and ways to address it both personally and professionally.
I hope to see you there!

References

My contact information is on the next slide.

Please feel free to contact me, whether you have questions, or want to inquire about me speaking in your area.
